CURATE | SHOPPING POLICIES

Personal Shopper AI Assistant - Sample RAG Knowledge Base | Version 2.0 | Updated November 2026

DEMONSTRATION DOCUMENT - FICTIONAL POLICIES. *All time frames, fees, processes, and support details below are invented for testing. They are not a representation of an actual store, contractual terms, or applicable consumer law.*

Purpose: This document provides standalone store-policy information for retrieval-augmented generation (RAG) testing. Product catalogs, product prices, inventories, and individual product specifications are deliberately excluded.

1. Orders and Order Confirmation

Order creation. An order is considered submitted after the customer confirms the checkout summary and receives an order reference number. Items placed in a shopping cart are not reserved.

Confirmation. A confirmation email is normally issued within 15 minutes of successful order submission. If not received, the customer should check spam or contact support with the checkout timestamp.

Order status. The sample statuses are Pending Payment, Confirmed, Packing, Shipped, Delivered, Cancelled, and Refunded. Only a confirmed transaction should be treated as an accepted order.

Processing window. Confirmed orders are usually prepared within 1-2 business days, excluding weekends and published holidays. Custom or special-order items may take longer and require advance notice.

2. Payments and Billing

Accepted payment methods. The fictional store accepts major credit/debit cards, selected e-wallets, and bank transfer at checkout. Cash on delivery is available only when the checkout screen explicitly offers it.

Payment verification. A bank transfer should be verified within one business day after receipt of valid proof. Orders awaiting payment may be automatically cancelled after 48 hours.

Billing records. Receipts are delivered electronically after successful payment. Invoice corrections should be requested within seven calendar days after receipt.

Payment security. Customers must not share passwords, one-time passcodes, or full card details in chat. The assistant cannot collect sensitive payment credentials or directly process card charges.

3. Shipping and Delivery

Service area. Standard delivery is available to eligible addresses within the Philippines. Availability is confirmed during checkout based on the delivery address.

Shipping charges. Metro Manila standard shipping is PHP 99; provincial standard shipping is PHP 149. An order subtotal of PHP 5,000 or above qualifies for free standard shipping before discounts and excluding shipping fees.

Estimated delivery. After dispatch, Metro Manila deliveries generally take 2-4 business days; provincial deliveries generally take 4-8 business days. These are estimates and not guarantees.

Tracking. Tracking details are normally provided within 24 hours after dispatch. Tracking updates may not appear immediately in the courier system.

Unsuccessful delivery. Couriers may make up to two delivery attempts. If the parcel is returned because the customer supplied an incorrect address or was unavailable, additional shipping charges may apply.

Damaged parcel. If outer packaging appears damaged, customers should take photographs before opening the parcel and report the concern within 48 hours of delivery.

4. Returns and Exchanges

Standard return window. Eligible unused items can be requested for return within 14 calendar days after the delivery date. A return request must include the order reference and reason.

Condition requirements. Returned items should include original accessories and packaging and must not show damage caused by misuse. A return may be declined if inspection indicates substantial use or missing components.

Defective or incorrect items. Customers should report a defective, damaged, or incorrectly shipped item within seven calendar days of delivery and provide photographs or video where relevant.

Non-returnable items. Digital goods, redeemed gift cards, personal-care consumables with broken seals, and customized items are generally excluded from change-of-mind returns unless the item is defective or applicable law requires otherwise.

Exchange process. A size, color, or model exchange depends on availability. If the requested replacement is unavailable, the customer may choose an eligible refund instead.

Return shipping. For verified wrong-item or defective-item cases, the fictional store covers reasonable return shipping. For approved change-of-mind returns, customers pay return shipping.

Inspection. Returned packages are inspected within three business days after warehouse receipt. Approval or rejection is communicated by email.

5. Refund Policy

Eligibility. Refunds are initiated only after cancellation approval or return inspection approval. Merely submitting a return request does not guarantee a refund.

Processing time. Approved refunds are initiated within five business days. The payment provider may require another 5-10 business days to post funds to the original payment method.

Refund amount. Approved refunds usually include the item price actually paid and applicable taxes. Original delivery fees are refunded only when the shipment was incorrect, defective, or not delivered because of the store.

Partial refunds. For multi-item orders, the approved refundable amount is calculated only for the accepted returned items and their applicable discounts.

Refund status. Customers can request a refund status update using the order reference and case number; do not request card or bank credentials in chat.

6. Warranty and Repairs

General coverage. Unless a product-specific warranty document states otherwise, eligible electronic devices carry a fictional 12-month limited warranty against manufacturing defects from the delivery date.

Exclusions. The limited warranty does not cover accidental damage, liquid exposure, improper installation, unauthorized modification, normal cosmetic wear, or damage caused by misuse.

Proof of purchase. A receipt or valid order reference is required. The support team may request device serial number and a description of the issue.

Warranty remedy. After inspection, the support team may arrange repair, equivalent replacement, or refund according to availability and applicable requirements.

Claim timeline. Customers should submit a warranty claim through support. Initial review usually takes two business days; final resolution varies based on inspection and replacement-part availability.

Legal rights. These demo warranty terms do not limit consumer rights provided by applicable law.

7. Order Changes and Cancellations

Before packing. Customers may request an address edit, item change, or cancellation while the order is Confirmed and before the Packing stage. Changes are not guaranteed until confirmed by support.

After packing. Orders already Packing or Shipped generally cannot be changed or cancelled. Customers may instead request an eligible return after delivery.

Cancelled payment. For paid orders cancelled before shipment, approved refunds follow the five-business-day initiation rule described in Section 5.

Duplicate orders. Customers should contact support promptly with both order references. An unshipped duplicate may be cancelled if its fulfillment has not started.

8. Promotions and Price Adjustments

Coupon use. Only one promotional code can be used per order unless the promotion explicitly allows stacking.

Coupon eligibility. Discounts may have minimum spend, category, account, or expiration requirements. An expired promotion cannot be applied retroactively.

Price changes. Prices shown at the time of a completed checkout govern that order. Later price changes do not automatically trigger refunds or extra charges.

Free shipping. The free standard-shipping threshold is calculated on eligible merchandise subtotal before discounts. Express shipping, where available, is excluded from free standard-shipping promotions.

9. Account, Privacy, and Support

Account access. Customers should secure login credentials and contact support immediately if they notice suspicious account activity.

Data use. For this fictional scenario, order and contact information are used to fulfill orders, provide support, investigate fraud, and honor legal obligations. A real deployment requires a store-specific privacy notice.

Support hours. Live support is available Monday-Friday, 9:00 AM-6:00 PM Philippine Time, excluding holidays. Requests received outside these hours are reviewed the next business day.

Support channels. Use the Help or Contact Support section in the shopping application. No real email address or telephone number is supplied in this test document.

Escalations. An unresolved case may be escalated after three business days without a substantive update. Provide the case number and a concise explanation of the issue.

10. Handling Policy Conflicts and Exceptions

Document priority. A product-specific warranty statement takes precedence over the general 12-month demo warranty for that product. Otherwise, the most recently effective store-wide policy applies.

Uncertain information. The shopping assistant should state when a policy answer is not supported by an uploaded document rather than inventing an exception or approval.

Consumer protections. Where applicable law grants stronger consumer protections than these demo terms, applicable law takes precedence.

Case-specific decisions. The AI assistant may explain policies but cannot independently approve an exception, issue a refund, guarantee delivery, or authorize a replacement.

Example RAG evaluation prompts

1. Can I return an unused item 12 days after delivery?
2. What is the shipping fee to a provincial address for a PHP 3,000 order?
3. How long do refunds take after approval?
4. Are liquid-damaged electronics covered by warranty?
5. Can I cancel an order that is already shipped?
6. What should I do if my delivered package appears damaged?
7. Can I combine two promotional codes?
8. When is support available?

End of fictional policy knowledge base. This PDF contains no product catalog.
